

WE'RE GOING ABOVE AND BEYOND TO KEEP YOU SAFE!

EVERYTHING YOU NEED TO KNOW ABOUT OUR COVID-19 PRECAUTIONS

Here at Great Smiles of New Jersey, keeping you safe and healthy has always been a top priority. Even before the coronavirus pandemic, we went far beyond the sanitation recommendations of the Centers for Disease Control and Prevention (CDC). We also know that the best thing we can do is keep our bodies healthy and our immune systems robust! Our team has surpassed Occupational Safety and Health Administration

(OSHA) recommendations and we're keeping our immune systems strong with nutrition and supplement recommendation programs, fitness goals, sleep hygiene, and oxygen breaks from personal protective equipment (PPE). We've always known that encouraging regular cleanings for our patients keeps the body's inflammation down, which boosts the immune system. Now we're taking things to an ever-higher level!

Nothing is more important to us than the safety of our patients and staff. To keep everyone healthy, we've come up with new ways to help you **check in and out safely.** We're also using **the latest virus-fighting technology.**

New Ways to Schedule and Before Your Appointment

- Online, real-time scheduling is here! No more waiting for callbacks.
- Schedule checkups, cleanings, emergencies, and consultations online at GreatSmilesNJ.com.
- For all other appointments or if you have questions, please call us at 908-561-0225.
- Please fill out and send back the emailed questionnaire that you will receive 24 hours prior to your appointment.

New Ways to Check In

- You will be the only patient scheduled for your provider, so please arrive on time or call us if you're delayed.
- When you arrive, park your car, and call us to let us know you're here. Please **STAY IN YOUR CAR.**
- Answer our easy screening questions over the phone.
- To control the number of patients in the office at one time, we will inform you when it's time to come into the office. Please wear a mask when you enter the building.
- Before entering the treatment room, we will take your temperature and other vitals.
- Parents are encouraged to escort children to the office or treatment room and wait in their vehicle or the reception area. For sterilization (and space) purposes, we request that parents not stay in the treatment area.
- In the treatment room, pre-rinse with hydrogen peroxide-based mouthwash. Enjoy your visit in safety and comfort.

New Ways to Check Out

- Follow-up appointments will be scheduled in the treatment room or by phone.
- SKIP the usual stop at the front desk.
- Payments will be handled using our secure text-to-pay program to decrease surfaces touched in the office. Enjoy the rest of your day with peace of mind.

OUR NEW SAFETY GADGETS AND CONTROLS

High-End PPE

Our personal protective equipment (PPE) is top-notch. Our staff will wear Level 3 masks or doubled KN95 masks, depending on the procedure. We'll also wear regular face shields, lab coats/surgical gowns, and gloves.

Surgically Clean Air

Our new air filters turn over the air in our treatment rooms every four minutes. This is lightning fast and helps prevent airborne pathogens.

Extraoral Vacuums

To be extra cautious, we've invested in another level of vacuum technology. This machine sits just outside of your mouth and vacuums in sprays, aerosols, bacteria, viruses, and more. Its five layers of filtration help keep you and our staff safe!

Isodry & Isovac

We're using vacuum technology to prevent airborne particles! This in-mouth machine sucks up 90% of aerosols. It also helps isolate the part of your mouth that we're working on and includes a bite block to hold your mouth open, letting your jaw relax.

Hypochlorous Acid Fog

We've added hypochlorous acid to our array of disinfectants approved by the Food and Drug Administration (FDA). Our bodies naturally produce this chemical to fight bacteria and viruses, so it's safe and effective. We invested in a fogger to spread the disinfectant around the treatment room and scrub the air.

GREAT SMILES, BETTER HEALTH!

What's a cleaning without your pearly whites? Of course we know that cleanings decrease inflammation and boost immunity. But cleanings also make you feel like smiling more! To polish off your beautiful smile, choose from the following whitening bonus options:

- \$100 off an at-home custom whitening (regularly \$450) or
- \$250 off an in-office whitening (regularly \$750) or
- \$350 off a deep whitening (regularly \$1150)

This offer expires 7/31/2020.

We want you to **LOOK** good and also **FEEL** good. Schedule your appt at **GreatSmilesNJ.com** or call us at **908-561-0225.**
